

TOBACCO FREE SCHOOL POLICY

I. RATIONALE FOR REGULATION OF POSSESSION & USE

The Board recognizes its responsibility to promote the health, welfare and safety of students, staff, and others on district property and at school-sponsored activities. Tobacco is the leading cause of preventable death and disability in Maine. In order to promote the health and safety of all students, employees, and the general public, and to role model a non-tobacco use environment, the following tobacco policy has been established.

II. DEFINITIONS

For the purposes of this policy, “tobacco” is defined to include any lighted or unlighted cigarette, cigar, pipe, bidi, clove cigarette, smokeless tobacco products and any other tobacco product. All of these same prohibitions shall apply to electronic cigarettes and other devices designed to deliver nicotine through inhalation or “vaping,” or used to simulate smoking.

III. TOBACCO USE & POSSESSION

The school grounds will be tobacco free 24 hours a day, 365 days per year. Student possession, use, distribution, or sale of tobacco, including any smoking device on district premises, at school-sponsored activities on or off district premises, in district-owned, rented or leased vehicles, or otherwise while the student is under the jurisdiction of MSAD 55, is prohibited.

Tobacco prevention education will be incorporated into the district’s pre-K-12 comprehensive health curriculum as part of the Maine Learning Results.

Tobacco use or distribution by staff, faculty, visitors, chaperones, volunteers, and the parents or guardians of students on district property, at district sponsored events, in district owned, rented or leased vehicles or otherwise while on duty on or off district premises is prohibited. Staff and/or all others authorized to use private vehicles to transport district students to school-sponsored activities are prohibited from using tobacco in those vehicles while students are under their care.

IV. TOBACCO ADVERTISING

Clothing, bags, hats, notebooks and other personal items used by staff and students to display, promote, or advertise tobacco products are prohibited on district grounds and at school-sponsored activities. Tobacco advertising is prohibited in all school-sponsored publications in all school buildings and at all school-sponsored events. District acceptance of gifts or funds from the tobacco industry is similarly prohibited.

V. COMMUNICATION OF POLICY

This tobacco policy will be included as part of the student and of the employee handbooks. Parents/guardians/caregivers of students will be made aware/reminded of the policy through either assembly announcements, a letter sent, or articles in school newsletters. Signs indicating tobacco-free areas will be posted at all school property entrances, parking lots, and athletic fields.
